

MANAGING AND SUPERVISING SCHOOLS THROUGH SMC/SC/PTC/PTA

A good partnership between Teachers and Community Members makes the delivery of primary education more effective. Traditional educational systems have not always involved parents and community groups. Experiences show that when the parents and community are actively involved in managing school activities, these activities become more practical, effective and sustainable

Training Fee:

Participants' level:

Training Venue:

Training Start:

Training length:

Training is expected to accomplish the following results: positive changes in students' learning and study habits; repaired, built, beautified, and maintained school buildings and surroundings; regularly conducted and better attended meetings; closer ties among teachers, parents, community members, and local officials; awareness of parents of their responsibilities in fostering good study habits and in monitoring students' performance; increased enrolment; decrease in truancy and absenteeism; and learning gains in the different subjects.
